YEARS

Kubex UK is a market leading bathroom product design and manufacturing company.

Established for over 20 years Kubex is the name you can trust to deliver stylish, practical solutions without compromise.

Manufactured in the UK by Kubex the Solo walk-in bath offers easy access bathing at a price you can afford.

Whether mobility issues prevent you from taking a bath or you simply desire the comfort and reassurance a walk-in bath provides then the Solo walk-in bath is the answer.

The Solo's design and features make bathing or showering an enjoyable and relaxing experience you no longer need to live without. Accessing a standard bath can be a daunting prospect; these fears and the need for assistance can be eliminated with the installation of an easy access Solo walk-in bath.

“Regain your independence”

Designed and manufactured to the highest standards and from the finest materials, the Solo can be used as a sit-down bath, a standing or seated shower or a soothing spa (optional whirlpool system).

Low level entry and the profiled doorway allow easy and safe access. The moulded seat and backrest offer comfort and support whilst twin foot operated pop-up wastes provide simple faster emptying; these along with its leak-free inward opening door and non-slip floor ensure that you can enjoy your Solo walk-in bath with confidence.

The Solo walk-in bath is available nationally through your local Plumbers merchant, Bathroom showroom and Mobility centres.

The Solo's practical and stylish design delivers a walk-in bath that will leave you confident to bathe and regain that independence you may have lost.

It can transform an existing bathroom or create a new en-suite or bathroom facility with minimal disruption. Simple to install, pre-set and tested the Solo arrives ready for installation, leaving the enjoyment of a soak in the bath only minutes away.

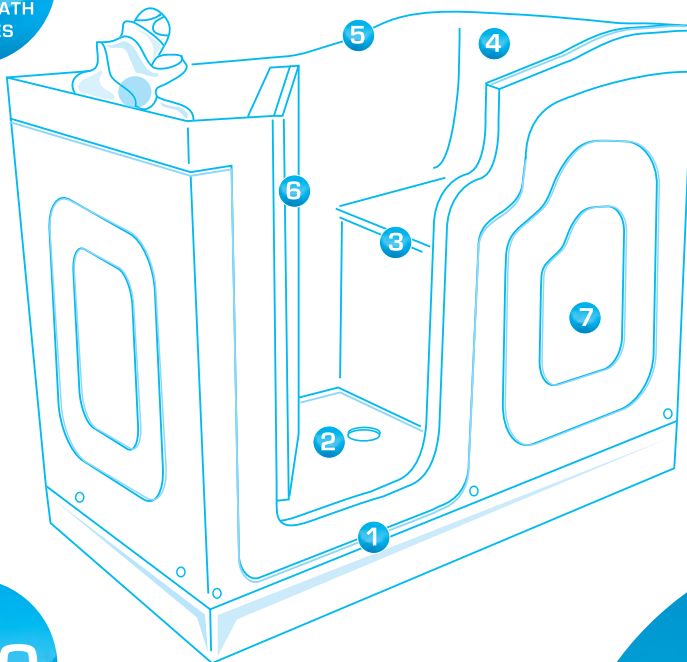

PLEASE NOTE:

The Solo walk-in bath is supplied with two pop-up wastes and four bath panels.

**5 YEAR
GUARANTEE**
